**BLUEBEAM**

Work anywhere. Build everywhere.
Introducing Bluebeam Subscription Plans

Stay current and get even more out of Bluebeam in the office and the field.

Your work - your way.

More flexibility

- Log in and start working on any computer with Revu installed
- Extend the work into the field with Bluebeam Cloud solutions on any web or mobile device
- Connect with external apps, automate workflows and integrate your tech stack

Peace of mind

- Onboard teams faster with intuitive onboarding guides and Bluebeam University courses at no additional cost
- Get dedicated technical support by email, phone and self-service to ensure projects stay on track
- Gain visibility and faster access to data shared across Bluebeam solutions

Lower TCO

- Assign the right Bluebeam plans based on job roles and needs
- Get ongoing product enhancements, upgrades and support
- Easily manage and track Bluebeam licences and installations

> " Our new accessible-from-anywhere products and services will allow us to deliver more ongoing value to every customer and every organisation. We're reinventing the way we deliver value across Design and Build workflows – in the office and in the field – so we can stay better engaged with our customers and the industry as it continues its rapid pace of change and innovation. "
>
> - Roger Angarita, Chief Product Officer, Bluebeam

We offer three plans for your AECO needs that you can mix and match for different users.

Basics
For simple markups, measurements, and document management.

Bluebeam Revu
